## What is neXT Learning?

Demand for trained and certified technical professionals is growing. To stay competitive in a global, fast-paced job market, it's imperative to stay up-to-date on emerging technologies and ensure your skills are relevant. SLI's **neXT Learning** Packages help you maintain your skills and gain knowledge with quick, easy access to training on the entire portfolio of SLI products and technologies.

Our students typically come to Sunset Learning for project related learning or certification needs. With today's quickly changing and increasingly complicated networks we understand that the traditional training model is no longer the best option for everyone so we are introducing **SLI neXT**.

### Components of neXT Learning

SLI neXT Learning Community	neXTpertise Sessions	Discussion Boards	Video Reference Library	24x7 Access for 1 Year!
✓	✓	✓	✓	✓

The **neXT Learning Community** is SLI's premier learning portal filled with valuable resources built with one goal in mind – to help you succeed! The community is driven by YOU, and monitored daily by SLI instructors and SME's to answer questions you may have, and keep you up-to-date on the latest industry trends.

**neXTpertise Sessions** are virtual, interactive sessions for customers and instructors & SME's to engage on a variety of topics. We will discuss new solutions that curriculum has not yet updated.  
**Session Types:** Industry updates, version upgrades, open Q&S sessions, exam prep, etc.

**Discussion Boards** are available within the neXT Learning Community where you can interact with instructors and other neXT Learning members. You can leave messages and expect to see responses to messages you have left.

The **Video Reference Library (VRL)** with hundreds of recorded ILT courses and neXTpertise sessions (searchable, on-demand, available 24x7!). The recorded material is not limited to ONE class. It includes recordings across multiple classes for one Technology Area (*EX: UCCE contains content from AUCCE 1, AUCCE 2, DUIC, DUCCE, etc.*)

## Where Do You Fall & How Will neXT Learning Benefit YOU?

Seeking Certification	Acquiring Skills/Project Based Knowledge
<ul style="list-style-type: none"> <li>• Review the Video Reference Library for exam topics</li> <li>• Take your certification instructor-led training class</li> <li>• Come to our neXTpertise Test Prep Session</li> <li>• Take a practice exam</li> <li>• Review recorded library in areas that you are weak before testing</li> <li>• Take the exam</li> </ul>	<ul style="list-style-type: none"> <li>• Review VRL for items that pertain to your upcoming project</li> <li>• Schedule either neXTpertise Session or Class (depending on project schedule)</li> <li>• Project Cutover</li> <li>• Schedule either neXTpertise Session or Class</li> <li>• Use VRL for any topics you need to brush up on</li> <li>• Students can attend as many quarterly sessions as they would like in a calendar year and audit the class for up to 6 months</li> </ul>
