

ANDREW STIBBARDS

CISCO & ARISTA TECHNICAL INSTRUCTOR

astibbards@sunsetlearning.com

Denver, CO

PROFILE

Andrew Stibbards studied at Northern Virginia Community College from 2007-2011, where he studied Computer Science and English. Afterwards, he worked in the DC-Metro area providing network and user support to over 30 companies. He was responsible for user support, maintenance, design, and implementation.

After being hired by Sunset Learning in early 2013, he received his training under the supervision of the SLI instructors. He has experience with installation, configuring, operating, and troubleshooting medium-sized routes and switched networks.

Andrew delivers both Arista and Cisco training, covering multiple topics including routing and switching, wireless, security, cybersecurity, and data center.
