

DENNIS NOFSINGER

WIRELESS TRAINING SPECIALIST

@ dnofsinger@sunsetlearning.com

📍 Akron, OH

PROFILE

Dennis Nofsinger worked for GigaWave Technologies as a Senior Wireless Training Specialist from December 2000 to October 2020. Dennis has focused on delivering top-notch wireless training for Cisco Systems and Certified Wireless Network Professional (CWNP).

Before joining GigaWave, he worked as a wireless engineer for Telxon Corporation, the parent company for Aironet - the company Cisco Systems Inc. acquired in 2000 to move into WiFi technology. At Telxon, Dennis was responsible for designing, installing, and supporting WiFi installations throughout the US and Canada. He has been in WiFi even before the phrase WiFi came to be. He has seen wireless technology grow from the beginnings of narrow-band radio to the current capabilities we have now. He brings to the class a wealth of knowledge and industry expertise.

Since becoming certified in 2018, Dennis has actively participated in delivering CWNP certification training classes and has also led two bootcamps at CWNP's Wireless Technology Forum Convention.

AWARDS

- Cisco Instructor Enterprise Excellence Award (2013-2020; 2022-2023)

“Dennis was amazing. His humor and demeanor were exactly what was needed to keep the content exciting and engaging. His delivery was awesome and his pace was perfect to make sure we understood the content. He was also very open to answering questions as they came up.” Rohan

“The instructor has a tremendous amount of knowledge and is skilled at explaining the concepts in a way that makes sense to anyone, regardless of their skill level.”
