

## Red Hat Camel Development with Red Hat JBoss Fuse (AD 421)

### COURSE OVERVIEW:

Camel and Red Hat Fuse enable developers to create complex integrations in a simple and maintainable format. Camel development is organized around:

- Routes that define a sequence or flow of processing.
- Processors that transform, interpret, and modify messages within a Camel route.
- Components that enable the creation of endpoints that interact with the outside world for acquiring and transmitting data.

This course can assist in preparing for the Red Hat Certified Specialist in Camel Development exam (EX421).

### WHO WILL BENEFIT FROM THIS COURSE?

- Java developers who need to learn how to use Camel, implement enterprise integration patterns (EIPs), and develop integration applications with Camel
- Java architects who need to understand how Apache Camel can be used in software architectures requiring integration between applications

### PREREQUISITES:

- Experience in developing and deploying Java EE 7 applications
- Experience with relational databases, JDBC, and SQL
- Experience with Java development tools such as Maven and Eclipse

### COURSE OBJECTIVES:

- Create basic routes and integration solutions with Camel.
- Combine messages through aggregation.
- Develop tests with Camel test kit and mock components.
- Develop REST services with the REST DSL and Swagger.
- Deploy a route on Karaf, EAP, and Spring Boot.
- Increase route throughput with parallel processing.
- Deploy microservices with Red Hat Fuse on OpenShift.

### COURSE OUTLINE:

#### Introduce Red Hat Fuse and Camel

- Describe how Red Hat Fuse and Camel are used to integrate applications.

#### Create routes

- Develop simple Camel routes.

#### Transform data

- Convert messages between data formats using implicit and explicit transformation.

#### Create tests for routes and error handling with Camel

- Develop reliable routes by developing route tests and handling errors.

#### **Route with Java beans**

- Create dynamic routes in Camel using Java beans.

#### **Implement REST services**

- Enable REST support on Camel with Java REST APIs.

#### **Deploy Camel routes**

- Package and deploy Camel applications for deployment with Red Hat Fuse.

#### **Implement transactions**

- Provide data integrity in route processing by implementing transactions.

#### **Implement parallel processing**

- Improve route processing throughput using Camel parallel processing mechanisms.

#### **Create microservices with Red Hat Fuse**

- Create microservices from Camel routes.

#### **Deploy microservices with Red Hat Fuse on OpenShift**

- Deploy microservices based on Camel routes to an OpenShift cluster using Red Hat Fuse on OpenShift.

#### **Perform comprehensive review**

- Demonstrate use of the knowledge gained in this course by coding Camel routes.

### **SUNSET LEARNING INSTITUTE (SLI) DIFFERENTIATORS:**

Sunset Learning Institute (SLI) has been an innovative leader in developing and delivering authorized technical training since 1996. Our goal is to help our customers optimize their cloud technology investments by providing convenient, high quality technical training that our customers can rely on. We empower students to master their desired technologies for their unique environments.

What sets SLI apart is not only our immense selection of trainings options, but our convenient and consistent delivery system. No matter how complex your environment is or where you are located, SLI is sure to have a training solution that you can count on!

#### **Premiere World Class Instruction Team**

- All SLI instructors have a four-year technical degree, instructor level certifications and field consulting work experience.
- Sunset Learning has won numerous Instructor Excellence and Instructor Quality Distinction awards since 2012

#### **Enhanced Learning Experience**

- The goal of our instructors during class is ensure students understand the material, guide them through our labs and encourage questions and interactive discussions.

#### **Convenient and Reliable Training Experience**

- You have the option to attend classes at any of our established training facilities or from the convenience of your home or office with the use of our HD-ILT network (High Definition Instructor Led Training)
- All Sunset Learning Institute classes are guaranteed to run – you can count on us to deliver the training you need when you need it!

### **Outstanding Customer Service**

- Dedicated account manager to suggest the optimal learning path for you and your team
- Enthusiastic Student Services team available to answer any questions and ensure a quality training experience
