

Security Engineering on AWS Jam

COURSE OVERVIEW

AWS Jam is a gamified event with teams competing to win by completing a series of hands-on challenges on the AWS platform over the course of a day. Participants develop, enhance, and validate team skill sets in the AWS Cloud through real-world problem-solving. Each AWS Jam takes place in a pre-created AWS infrastructure that is based on common use cases that participants use to determine what happened, how to best respond, and how to deploy appropriate solutions. While each challenge has a set of goals, the path to the solution is open-ended, allowing teams the freedom to play and learn by exploring different approaches and combinations of AWS services. Participants will experience a wide range of AWS services in a series of real-world scenarios that represent common operational and troubleshooting tasks. A live leaderboard provides updates on team stats and progress. Teams earn the most points by solving challenges before the other teams. If they get stuck, they can use clues, but each clue will reduce their score.

WHO WILL BENEFIT FROM THIS COURSE?

This course is intended for solutions architects, solution-design engineers, developers seeking an understanding of AWS architecting, and individuals seeking the AWS Solutions Architect-Associate certification.

PREREQUISITES

Security Engineering on AWS

COURSE OBJECTIVES

- Hands-on format, putting learners in the driver's seat to make decisions and solve problems in an active AWS Cloud environment to amplify understanding
- Challenges based on real-world scenarios so your team can build practical skills
- Develop your team's skillsets in the AWS Cloud to advance your cloud adoption journey
- Facilitated by an expert AWS instructor who can answer questions and give real-time feedback
- Validate learning through reports on teams including benchmarks, completion times, and which challenges were the most difficult
- Reinforce your team's learning while it's still fresh in your team's heads – AWS Jam can be added after the final day of classroom training class

WHY TRAIN WITH SUNSET LEARNING INSTITUTE?

Sunset Learning Institute (SLI) has been an innovative leader in developing and delivering authorized technical training since 1996. Our goal is to help our customers optimize their technology investments by providing convenient, high quality technical training that our customers can rely on. We empower students to master their desired technologies for their unique environments.

What sets SLI apart is not only our immense selection of trainings options, but our convenient and consistent delivery system. No matter how complex your environment is or where you are located, SLI is sure to have a training solution that you can count on!

Premiere World Class Instruction Team

- All SLI instructors have a four-year technical degree, instructor level certifications and field consulting work experience
- Sunset Learning has won numerous Instructor Excellence and Instructor Quality Distinction awards since 2012

Enhanced Learning Experience

- The goal of our instructors during class is ensure students understand the material, guide them through our labs and encourage questions and interactive discussions.

Convenient and Reliable Training Experience

- You have the option to attend classes live with the instructor, at any of our established training facilities, or from the convenience of your home or office
- All Sunset Learning Institute classes are guaranteed to run – you can count on us to deliver the training you need when you need it!

Outstanding Customer Service

- You will work with a dedicated account manager to suggest the optimal learning path for you and/or your team
- An enthusiastic student services team is available to answer any questions and ensure a quality training experience
