

Administering Webex Contact Center (AWXCC)

COURSE OVERVIEW

Administering Webex Contact Center (AWXCC) is a 4-day, hands-on, instructor-led training course intended for anyone requiring Day 2 support knowledge of the Webex Contact Center environment. This lab-intensive course enables learners to administer Webex Contact Center in a cloud-native environment.

The lab environment includes a production Webex Tenant environment and provides each learner with the individualized resources available within Webex Contact Center to gain experience at an individualized pace. Since the training and Customers' production environments are similar, the positive impacts of the knowledge gained in the course will be immediately beneficial to attendees as well as the Webex Tenant organization being maintained.

Course topics include setting up accounts, navigating the Contact Center Management Dashboard, configuring basic Contact Routing Flows to establish the customer experience, and performing day-to-day operational tasks. The course also includes advanced features that focus on creating custom call queues, defining contact attributes, utilizing digital communication channels, and creating a typical Call Center operating environment for Agents and Supervisors that incorporate Monitoring, Recording, and Reporting capabilities. Functional testing and problem isolation are included as a part of the lab environment itself.

WHO WILL BENEFIT FROM THIS COURSE?

- Digital Platform Architects
- Voice System Engineers
- DevOps teams
- Operations managers
- Contact Center solution and training specialists
- Support/Quality teams
- Webex Partner systems engineers
- Anyone with Day-2 responsibilities for Webex Contact Center

PREREQUISITES

Each learner must have a PC/laptop with audio/video capability, preferably with the Webex app already installed. At least one PSTN-capable phone (cell phone) is required. Although you will be using Webex Calling for Agent functionality, access to multiple PSTN phones will augment the understanding of the Webex Contact Center environment regarding routing calls to Agents – wherever they may reside.

Learners should have the following knowledge or experience:

- MUST have prior knowledge of Call/Contact Center Operations and/or Administration
- SHOULD have a basic understanding of Contact Routing and Reporting in an On-prem or Cloud based Call/Contact Center environment

- SHOULD have familiarity with applications and services available in the Cloud
- Possess multitasking skills regarding computer functionality, including the simultaneous use of the Ctrl-Tab keys

COURSE OBJECTIVES

Learners will gain proficiency with the Webex Contact Center Cloud-based operating environment and be able to provide Day 2 operational support in a multi-channel Tenant environment. Upon successful completion of this course, the student should gain proficiency in the following:

- Describe the capabilities, architecture, licensing, and PSTN calling options of the Webex Contact Center solution
- Configure Tenant Profile components, including Sites, Teams, Users, Agents, and the various types of associated profiles
- Design Queues, Call Routing Strategies, and Flows to handle common inbound calls routed to the IVR and Agents
- Configure skill overflow/relaxation techniques used for LAA and SBR queues
- Configure Routing Strategies to accommodate Business Hours
- Establish Supervisory functions, including Call Monitoring and Recording
- Define the functionality of Digital Channels including Email, SMS, WebChat, and others
- Generate common analytics displays and custom reports
- Perform basic configuration and administration of the Webex Contact Center solution

COURSE OUTLINE

The Administering Webex Contact Center (AWXCC) course is a 4-day, hands-on, instructor-led training intended for anyone with Day-2 responsibilities for Webex Contact Center. This lab-intensive course enables learners to administer Webex Contact Center. The course contains the following lecture and lab components.

Module 1: An Introduction to Cisco Webex Contact Center

Objective: Introduce the capabilities, architecture, and navigation of the Webex Contact Center solution

- Webex Contact Center Overview
- Webex Contact Center Architecture
- Licensed Options
- Accessing the Contact Center
- PSTN Options
- Discovery 1-1: Navigating the Control Hub and Contact Center Portal

Module 2: Tenant Profiles

Objective: Demonstrate and configure the components of a Tenant Profile

- Components of a Tenant Profile
- Contact Center User Types

- Profile Types for Users
 - Skill, User, Agent, Multimedia
 - Including Skill Definitions
- Sites and Teams
- Adding Contact Center Users
 - Profile Associations for Various Types of Contact Center Users
- Bulk Tools
- Discovery 2-1: Creating Profiles for Users
- Discovery 2-2: Configuring Sites and Teams
- Discovery 2-3: Provisioning Contact Center Agents

Module 3: Routing Strategies and Call Flows

Objective: Configure Entry Point, complex Call Routing strategies, and Call Control scripts

- Overview
- Dialed Numbers (DNs), Entry Points, and Queues
- Routing Strategies and Audio Files
- Call Flow Overview
- Basic Activity Configuration for Inbound Call Flows
- Advanced Activity Configuration
- Discovery 3-1: Defining Dialed Numbers, Extensions, Entry Points, and Queues
- Discovery 3-2: Creating a Call Flow to Agents
- Discovery 3-3: Adding IVR Functionality to the Call Flow

Module 4: Supervisory Functions

Objective: Define and demonstrate the Supervisory functions including Call Monitoring and Recording

- Supervisor Configuration
- Call Recording
- Recording Management
- Call Monitoring
- Discovery 4-1: Configuring the Supervisor and Common Supervisor Tasks

Module 5: WebEx Connect Digital Channels

Objective: Define the Digital Channel functionality of the Webex Contact Center environment

- Digital Channels Overview
- Web/Live Chat
- Facebook Messenger
- Email
- SMS
- Digital Channel Flow
- Discovery 5-1: Loading the Three Default Flows for WebEx Connect (Instructor Demo)
- Discovery 5-2: Configuring Web/Live Chat in WXCC

- Discovery 5-3: Configuring the Facebook Messenger Channel
- Discovery 5-4: Configuring the Email Channel

Module 6: Reports and Dashboards Using Visualizations

Objective: Define the available types of Reports and Analytics for visualizations, and demonstrate the ability to generate custom reports within specified parameters

- Visualizations
- Reporting options
- Stock Reports
- Dashboards
- Discovery 6-1: Using Visualization to Generate Reports and Dashboards

LAB ACTIVITIES

- Discovery 1-1: Navigating the Control Hub and Contact Center Portal
 - Explore the Webex Control Hub
 - Explore the Webex Contact Center Management Portal
 - Create an Administrative User for the Control Hub and Contact Center Portal
- Discovery 2-1: Creating Profiles for Users
 - Create a User Profile
 - Create an Agent Profile
 - Create a Multimedia Profile
 - Create Skill Definitions and Skill Profiles
- Discovery 2-2: Configuring Sites and Teams
 - Configure a Site
 - Configure Teams
- Discovery 2-3: Provisioning Contact Center Agents
 - Contact Center Enable your Administrator account
 - Add an Agent to the Contact Center
- Discovery 3-1: Defining Dialed Numbers, Extensions, Entry Points, and Queues
 - Observe Contact Center Dialed Numbers, add Agent Extensions
 - Configure and Map Entry Point to DN
 - Configure Longest Available Agent (LAA) Queues
 - Configure a Skills-Based Routing (SBR) Queue
- Discovery 3-2: Creating a Call Flow to Agents
 - Create a Basic Call Flow
 - Configure a Routing Strategy
 - Test inbound calling to an Agent
- Discovery 3-3: Adding IVR Functionality to the Call Flow
 - Add basic Prompt/Collect (IVR) functionality to a Call Flow
 - Skills Based Routing (SBR) and Relaxation
 - Routing Strategy considerations for Business Hours

- Discovery 4-1: Configuring the Supervisor and Common Supervisor Tasks
 - Log in to Webex Control Hub and Make a Supervisor
 - Configure and Use Call Recording as a Supervisor or Administrator
 - Configure and Use Call Monitoring as a Supervisor or Administrator
- Discovery 5-1: Loading the Three Default Flows for WebEx Connect (Instructor Demo)
 - Log In to Webex Connect
- Discovery 5-2: Configuring Web/Live Chat in WXCC
 - Create an Account on Glitch.com
 - Configure a Service in Webex Connect
 - Configure a Chat App/Asset in Webex Connect
 - Create an Entry Point and Queue for Chat in Webex CC
 - Add a Template
 - Create a New Chat Flow
 - Configure the Chat Asset in Webex Engage
 - Configure Chat Templates in Webex Engage
- Discovery 5-3: Configuring the Facebook Messenger Channel
 - Create a Facebook Page
 - Create a Facebook App (Asset) in Webex Connect
 - Create an Entry Point and Queue for Facebook Messenger in Webex CC
 - Add and Configure the Facebook Messenger Flow to Your Service
 - Test Your Facebook App
 - Configure Facebook Templates in Webex Engage
- Discovery 5-4: Configuring the Email Channel
 - Create an Email App (Asset) in Webex Connect
 - Log In to Your Student Email Box and Forward to Webex Connect
 - Create an Entry Point and Queue for Email in Webex CC
 - Add and Configure the Email Flow to Your Service
 - Configure Email Templates in Webex Engage
 - Test your Email Digital Channel
- Discovery 6-1: Using Visualization to Generate Reports and Dashboards
 - Log into Customer Journey Analyzer and Review the Default Dashboard Reports
 - Customer Journey Analyzer User Interface
 - Access Control
 - Execute Stock Reports
 - Create a Custom Report Using a Stock Report
 - Create a Real-time Contact Report
 - Create a Real-time Agent Report
 - Create Chat Reports with Interval
 - Use Formulas and Filters
 - Enhanced Field Compound Visualization and Drill-down
 - Stock Dashboards

WHY TRAIN WITH SUNSET LEARNING INSTITUTE?

Sunset Learning Institute (SLI) has been an innovative leader in developing and delivering authorized technical training since 1996. Our goal is to help our customers optimize their technology Investments by providing convenient, high quality technical training that our customers can rely on. We empower students to master their desired technologies for their unique environments.

What sets SLI apart is not only our immense selection of trainings options, but our convenient and consistent delivery system. No matter how complex your environment is or where you are located, SLI is sure to have a training solution that you can count on!

Premiere World Class Instruction Team

- All SLI instructors have a four-year technical degree, instructor level certifications and field consulting work experience
- Sunset Learning has won numerous Instructor Excellence and Instructor Quality Distinction awards since 2012

Enhanced Learning Experience

- The goal of our instructors during class is ensure students understand the material, guide them through our labs and encourage questions and interactive discussions.

Convenient and Reliable Training Experience

- You have the option to attend classes live with the instructor, at any of our established training facilities, or from the convenience of your home or office
- All Sunset Learning Institute classes are guaranteed to run – you can count on us to deliver the training you need when you need it!

Outstanding Customer Service

- You will work with a dedicated account manager to suggest the optimal learning path for you and/or your team
- An enthusiastic student services team is available to answer any questions and ensure a quality training experience
