

CCIE Enterprise Wireless Bootcamp

COURSE OVERVIEW:

The CCIE Enterprise v1.0 Wireless Bootcamp Class is a 7-day instructor-led course that is intended to get you ready to take and pass the CCIE lab exam. This class is intended to be taken towards the end of your lab preparation and is designed to learn and practice skills that will improve your chances of lab success. While we will be teaching/reinforcing some of the more important individual technologies, the focus is more about getting good at taking the lab. There are many skills needed in addition to understanding the technologies that can easily make the difference between passing and failing the lab. We want to make sure that you walk into the actual lab with as few weaknesses as possible, and this class is designed to help accomplish that.

PREREQUISITES:

In order to get the most out of the class, we recommend that you are already familiar with the material covered in Network Dojo's Workbook Vol 1, and Lab Video Series 1 at a minimum. Ideally, you've also gone through the design and troubleshooting topics included in Workbook Vol 2, and Lab Video Series 2.
