

Microsoft Cloud for Healthcare (IC-001T00)

COURSE OVERVIEW

It will give you an initial idea on the main scenarios from healthcare industry and how the solution solves for each scenario. The course will help you to understand each of the Microsoft Cloud for Healthcare solution capabilities and practice configuring them for the scenarios. The course will also give you a jump start on Azure Health Data Service configuration and scenarios.

WHO WILL BENEFIT FROM THIS COURSE?

This course is designed for individuals willing to learn Microsoft Cloud for Healthcare. It will benefit a range of roles from industry experts such as Healthcare engineers, informaticist and those who are involved with healthcare IT. It is also targeting Power Platform, Azure and Microsoft 365 solution architects who are willing to expand their skillsets to implement Microsoft Cloud for Healthcare.

PREREQUISITES

It is highly recommended that learners have a deep understanding of Microsoft Power Platform prior to attending this course.

COURSE OBJECTIVES

Students will learn:

- Microsoft Cloud for Healthcare overview
- Microsoft Cloud for Healthcare data model for Dataverse
- Microsoft Cloud for Healthcare training environment preparation
- Manage healthcare data with Care Management in Microsoft Cloud for Healthcare
- Patient outreach in Microsoft Cloud for Healthcare
- Home health in Microsoft Cloud for Healthcare
- Azure Health Bot in Microsoft Cloud for Healthcare
- Enable patients to access the Patient Access portal
- Virtual visits in Microsoft Cloud for Healthcare
- Introduction to Azure Health Data Services
- Health data and FHIR®
- Work with medical imaging data and DICOM
- MedTech service with IoT devices

COURSE OUTLINE

Module 1: Microsoft Cloud for Healthcare overview

- Learn about the current healthcare trends and demands.
- Discover the basics of Microsoft Cloud for Healthcare.
- Learn about priority healthcare scenarios and featured capabilities of the solution.

Module 2: Microsoft Cloud for Healthcare data model for Dataverse

- Common Data Model
- Microsoft Cloud for Healthcare data model
- Common Data Model extensibility

Module 3: Microsoft Cloud for Healthcare training environment preparation

- Describe the dependencies of Microsoft Cloud for Healthcare
- Obtain trial licenses for dependent products
- Obtain trial licenses for Microsoft Cloud for Healthcare
- Configure environment to deploy Microsoft Cloud for Healthcare
- Assign security roles

Module 4: Manage healthcare data with Care Management in Microsoft Cloud for Healthcare

- Explore the Microsoft Cloud for Healthcare data model.
- Navigate the Care Management application.
- Create a new location record for Lamna Healthcare Company.

Module 5: Patient outreach in Microsoft Cloud for Healthcare

- Create a patient segment.
- Create a marketing email.
- Create a patient journey.
- Create a virtual healthcare marketing event.

Module 6: Home health in Microsoft Cloud for Healthcare

- Create a bookable resource.
- Configure the schedule board.
- Use care management components with the Microsoft Dynamics 365 Field Service Mobile app.

Module 7: Azure Health Bot in Microsoft Cloud for Healthcare

- Set up Azure Health Bot
- Configure Dynamics 365 Customer Service Omnichannel Live Chat
- Embed Azure Health Bot in a Power Apps Portal
- Extend Azure Health Bot with custom scenarios

Module 8: Enable patients to access the Patient Access portal

- Set up and navigate the Patient Access portal.
- Create and set up agent scripts to show in the Productivity pane.
- Create and set up knowledge articles.
- Experience an escalation scenario from the Healthcare Patient Portal through Microsoft Azure Health Bot into Patient Service Center.

Module 9: Virtual visits in Microsoft Cloud for Healthcare

- Configure the Virtual Clinic app
- Configure Microsoft Teams for virtual visits
- Schedule a virtual visit in the Patient Portal

Module 10: Introduction to Azure Health Data Services

- Explore interoperability challenges of health and life sciences data.
- Describe the core global health data standards that Azure Health Data Services supports today.
- Examine the tools and connectors that comprise Azure Health Data Services and the benefits that they provide.

Module 11: Health data and FHIR®

- Identify types of FHIR resources.
- Identify resource elements, structures, and hierarchy.
- Learn about the FHIR RESTful API framework.

Module 12: Work with medical imaging data and DICOM

- Learn why DICOM standards are important.
- Explore the DICOM standards and DICOM service.
- Review the use case for radiology data in cancer treatment with examples.

Module 13: MedTech service with IoT devices

- Enable IoT data scenarios for remote patient monitoring.
- Ingest data from devices.

WHY TRAIN WITH SUNSET LEARNING INSTITUTE?

Sunset Learning Institute (SLI) has been an innovative leader in developing and delivering authorized technical training since 1996. Our goal is to help our customers optimize their technology Investments by providing convenient, high quality technical training that our customers can rely on. We empower students to master their desired technologies for their unique environments.

What sets SLI apart is not only our immense selection of trainings options, but our convenient and consistent delivery system. No matter how complex your environment is or where you are located, SLI is sure to have a training solution that you can count on!

Premiere World Class Instruction Team

- All SLI instructors have a four-year technical degree, instructor level certifications and field consulting work experience
- Sunset Learning has won numerous Instructor Excellence and Instructor Quality Distinction awards since 2012

Enhanced Learning Experience

- The goal of our instructors during class is ensure students understand the material, guide them through our labs and encourage questions and interactive discussions.

Convenient and Reliable Training Experience

- You have the option to attend classes live with the instructor, at any of our established training facilities, or from the convenience of your home or office

- All Sunset Learning Institute classes are guaranteed to run – you can count on us to deliver the training you need when you need it!

Outstanding Customer Service

- You will work with a dedicated account manager to suggest the optimal learning path for you and/or your team
- An enthusiastic student services team is available to answer any questions and ensure a quality training experience
