

ITIL Managing Across the Lifecycle Capability (MALC)

COURSE OVERVIEW:

ITIL® 2011 edition is comprised of five core publications: Service Strategy, Service Design, Service Transition, Service Operations and Continual Service Improvement, promoting alignment with the business as well as improving operational efficiency. The official ITIL® qualification scheme describes two streams, the Service Lifecycle Stream and the Service Capability stream.

The Service Lifecycle stream focuses on ITIL® practices within the Service Lifecycle context. The prime focus is the Lifecycle itself as well as the use of process and practice elements used within it.

The Service Capability stream is for those who wish to obtain an in depth understanding of ITIL® processes and roles. Attention to the Service Lifecycle is illustrated as part of the curriculum but the primary focus is the on the process activities, execution and use throughout the Service Lifecycle.

The ITIL® MALC (Managing Across the Lifecycle) course offers candidates the ability to achieve the ITIL Expert certification upon passing the ITIL® Managing Across the Lifecycle exam. The course prepares candidates to take the ITIL® Managing Across the Lifecycle Intermediate exam as well as proving valuable knowledge that can be implemented in the workplace. This certification completes the ITIL® Intermediate Lifecycle and Capability streams by focusing on the knowledge required to implement and manage the necessary skills associated with the use of the Service Lifecycle.

WHO WILL BENEFIT FROM THIS COURSE?

CIOs, CTOs, managers, supervisory staff, team leaders, designers, architects, planners, IT consultants, IT audit managers and IT security managers who and others who require a deeper knowledge of, or who are involved in managing Services across the different lifecycle phases.

PREREQUISITES:

An ITIL®_ Foundation certificate and a minimum of 15 credits earned through the formal Service Lifecycle stream or Service Capability stream qualifications.
