

Build and Administer APIs with Red Hat 3scale API Management (JB 240)

COURSE OVERVIEW:

Build and Administer APIs with Red Hat 3scale API Management (JB240) is a hands-on, lab-based course that gives developers and administrators an introduction to managing APIs with our technology. Red Hat® 3scale API Management enables developers and administrators to monetize, manage, and document APIs.

This course is based on Red Hat 3scale API Management 2.4.

API management capabilities are becoming increasingly important as companies begin to use application programming interfaces to provide direct programmable access to their services, data, and processes. In this course, you will explore the features of Red Hat 3scale API Management and learn to create and manage a developer portal with these features:

- End-user signup flows
- ActiveDocs documentation
- Custom workflows
- Rate limits
- SOAP and ODATA web services

Through your understanding of these features and others, you will find out how 3scale API Management plays a critical role in digital transformation and agile integration practices.

Course content summary

- Understand 3scale API Management architecture and primary features.
- Learn typical API use cases and strategies.
- Investigate 3scale API Management deployment options.
- Establish and configure subscription plans.
- Configure and test API management integration.
- Configure a developer portal.
- Set up Red Hat SSO integration.

WHO WILL BENEFIT FROM THIS COURSE?

- API developers interested in using 3scale API Management for API billing and enabling security and access control features
- System architects and administrators who want to create a portal for monetizing their APIs

PREREQUISITES:

- Familiarity with APIs and testing APIs
- Familiarity with containers and Red Hat® OpenShift is helpful, but not required

COURSE OBJECTIVES:

As a result of attending this course, you will understand the architecture and features of 3scale API Management and will be able to demonstrate these skills:

- Create, manage, and monetize APIs.
- Establish and configure API subscription plans.
- Configure and test API management integration.
- Configure rate limits for APIs.

COURSE OUTLINE:

- 3scale API Management solution overview
- API strategies
- Architecture and deployment options
- OpenShift architecture and concepts
- Basic API management configuration
- Set up developer portal
- Set up Red Hat SSO integration
- Set up API billing
- Define webhooks
- 3scale Platform REST API

SUNSET LEARNING INSTITUTE (SLI) DIFFERENTIATORS:

Sunset Learning Institute (SLI) has been an innovative leader in developing and delivering authorized technical training since 1996. Our goal is to help our customers optimize their cloud technology investments by providing convenient, high quality technical training that our customers can rely on. We empower students to master their desired technologies for their unique environments.

What sets SLI apart is not only our immense selection of trainings options, but our convenient and consistent delivery system. No matter how complex your environment is or where you are located, SLI is sure to have a training solution that you can count on!

Premiere World Class Instruction Team

- All SLI instructors have a four-year technical degree, instructor level certifications and field consulting work experience.
- Sunset Learning has won numerous Instructor Excellence and Instructor Quality Distinction awards since 2012

Enhanced Learning Experience

- The goal of our instructors during class is ensure students understand the material, guide them through our labs and encourage questions and interactive discussions.

Convenient and Reliable Training Experience

- You have the option to attend classes at any of our established training facilities or from the convenience of your home or office with the use of our HD-ILT network (High Definition Instructor Led Training)
- All Sunset Learning Institute classes are guaranteed to run – you can count on us to deliver the training you need when you need it!

Outstanding Customer Service

- Dedicated account manager to suggest the optimal learning path for you and your team
- Enthusiastic Student Services team available to answer any questions and ensure a quality training experience
