

Managing Enterprise Networks with Cisco Prime Infrastructure (MENPI)

COURSE OVERVIEW

The Managing Enterprise Networks with Cisco Prime Infrastructure (MENPI) v4.1 course is an instructor-led, lab-based, hands-on course offered by Learning@Cisco. The overall goal of the course is to enable you to manage an enterprise wired and wireless network with Cisco® routers, switches, wireless controllers, and access points using the Cisco Prime® Infrastructure solution. In this course, you will learn how to manage your network with Cisco Prime Infrastructure by adding devices, managing inventory, creating reports, creating wired and wireless device maps, monitoring the network, managing device configurations, managing device compliance, and performing system administration tasks. This course also introduces the various services and options available with Cisco Prime Infrastructure.
