

Palo Alto Networks: Prisma Access: Consistent Security Everywhere (LO) (EDU-318)

*Powered by Cloud Harmonics

COURSE OVERVIEW

Your organization's cloud transformation is changing the way that your users access applications and the way that you deliver security protection. You need to enable secure access, protect users and applications, and control data – from anywhere. Multiple point products have been the standard approach, but they add cost and complexity, and leave gaps in your security posture. Now there's a better way – the secure access service edge (SASE). Palo Alto Networks is paving the way with Prisma Access.

The Prisma Access SASE Security: Design and Operation (EDU-318) course describes Prisma Access Secure Access Service Edge (SASE) and how it helps organizations embrace cloud and mobility by providing network and network security services from the cloud.

This course is intended for people in the fields of public cloud security and cybersecurity, or for anyone who wants to learn how to secure remote networks and mobile users.

WHO WILL BENEFIT FROM THIS COURSE?

- Security Engineers
- Security Administrators
- Security Operations Specialists
- Security Analysts
- Network Engineers

PREREQUISITES

Participants should have a basic knowledge of cloud computing and the public cloud. Participants must complete the Firewall 9.0 Essentials: Configuration and Management course and the Panorama 9.0: Managing Firewalls at Scale course, or have equivalent experience. Participants also must have experience with networking concepts including routing, switching, and IP addressing.

COURSE OBJECTIVES

Successful completion of this instructor-led course will help enhance your understanding of how to better protect your applications, remote networks, and mobile users using a SASE implementation.

COURSE OUTLINE

This class is comprised of ten modules focusing on an overview of configuring, managing, and troubleshooting Prisma Access.

- Module 1: Prisma Access Overview
- Module 2: Planning and Design

- Module 3: Activate and Configure
- Module 4: Security Processing Nodes
- Module 5: Panorama Operations for Prisma Access
- Module 6: Remote Networks
- Module 7: Mobile Users
- Module 8: Tune, Monitor, and Troubleshoot
- Module 9: Manage Multiple Tenants
- Module 10: Next Steps

WHY TRAIN WITH SUNSET LEARNING INSTITUTE?

Sunset Learning Institute (SLI) has been an innovative leader in developing and delivering authorized technical training since 1996. Our goal is to help our customers optimize their technology Investments by providing convenient, high quality technical training that our customers can rely on. We empower students to master their desired technologies for their unique environments.

What sets SLI apart is not only our immense selection of trainings options, but our convenient and consistent delivery system. No matter how complex your environment is or where you are located, SLI is sure to have a training solution that you can count on!

Enhanced Learning Experience

- The goal of our instructors during class is ensure students understand the material, guide them through our labs and encourage questions and interactive discussions.

Convenient and Reliable Training Experience

- You have the option to attend classes live with the instructor, at any of our established training facilities, or from the convenience of your home or office
- All Sunset Learning Institute classes are guaranteed to run – you can count on us to deliver the training you need when you need it!

Outstanding Customer Service

- You will work with a dedicated account manager to suggest the optimal learning path for you and/or your team
- An enthusiastic student services team is available to answer any questions and ensure a quality training experience
